Wilson EZ Gear™ Catcher’s Helmet Update

SEI recently conducted additional testing of the previously tested and certified Wilson EZ Gear™ Catcher’s Helmet. The conclusion of this additional testing resulted in SEI removing one manufacturing batch of this specific model from its certified catcher’s helmet list. At this time, no other Wilson catcher’s helmet models have been impacted by this change.

The impacted Wilson EZ Gear™ Catcher’s Helmet model is identified with the three letter Date Code ZCZ for Model numbers WTA558000SM and WTA558000LX. This information can be found on a sticker on the inside top of the helmet that will look like the following image. All other Date Codes retain SEI certification to the NOCSAE standard. The two identifying pieces of information are highlighted in red.
