

May 13, 2021

TO SEI NOCSAE PARTICIPANTS:

**SEI Certification Bulletin #29  
Standards Update and SEI/SFIA Meeting Announcement**

This bulletin will serve to provide updates relevant to the SEI NOCSAE Certification Program, such as NOCSAE standard revisions, and other certification related topics.

**NOCSAE STANDARDS ACTIVITY**

SEI staff was in attendance at the virtual NOCSAE Winter Standards Committee meeting held in Phoenix, AZ on January 29, 2021. As a result, we have provided below SEI's summary of the standards development activity taken during the meeting.

**Revised NOCSAE Standards**

NOCSAE proposed the following standard revisions during the Winter 2021 Standards Committee meeting. Revisions are typically substantive changes to the performance requirements or test methods that could potentially affect the ability of the currently certified product to meet the revised standard. Product compliance with the revised standards will be handled over the following year in an effort to complete all standard revision submittals prior to the February 2022 effective date.

**ND022-21 Standard Performance Specification for Newly Manufactured Baseball/Softball Batter's Helmets (Revised January 2021, Effective February 2022)**

- Added a compression deflection upper limit of 400 lbs. to the softball projectile specification

**ND024-21 Standard Performance Specification for Newly Manufactured Baseball/Softball Catcher's Helmets with Faceguards (Revised January 2021, Effective February 2022)**

- Added a compression deflection upper limit of 400 lbs. to the softball projectile specification

**ND029-21 Standard Performance Specification for Newly Manufactured Baseball/Softball Fielder's Headgear (Revised January 2021, Effective February 2022)**

- Added a compression deflection upper limit of 400 lbs. to the softball projectile specification

**ND072-21 Standard Performance Specification for Newly Manufactured Baseball/Softball Batter's Helmet Mounted Face Protector (Revised January 2021, Effective February 2022)**

- Added a compression deflection upper limit of 400 lbs. to the softball projectile specification

**Notice of Revision Status Change for ND200 - Protectors for Commotio Cordis**

**ND200-21** *Standard Test Method and Performance Specification Used in Evaluating the Performance Characteristics of Protectors for Commotio Cordis*

- Please review NOCSAE's recent announcement with regard to the change in status of this proposed revision: <https://nocsae.org/meetings/summer-board-meeting/>

**Updated Test Fee Matrices**

SEI has included with this letter the current and updated (denoted by yellow text) laboratory test fees for those standards which have been revised. As required by the SEI Certification Program Manual *Section 30: NOCSAE Manufacturer's Agreement*, SEI is hereby providing 60-days' notice to Participants for fee changes. As such, any increased laboratory testing fees will be in effect July 12, 2021.

**SEI/SFIA NOCSAE Program Meeting Announcement**

In an effort to encourage improved communication between SEI and NOCSAE Licensees, SEI and the SFIA have established NOCSAE Program meetings to provide an opportunity for regular discussions regarding, for example, recent SEI Certification Program Bulletins, NOCSAE standard(s) requirement(s) implementation, upcoming revisions to the SEI Certification Program Manual, NOCSAE QA/QC training materials and sessions, and NOCSAE standards activity, etc.

The next SEI/SFIA NOCSAE Program meeting, which will be hosted by ASTM, is scheduled for May 18, 2021 at 2pm EDT. Hopefully you have received the meeting registration invitation from either ASTM or from the SFIA. If you did not receive the meeting registration invitation (which was sent out on May 3, 2021) please contact Anna Seiple ([aseiple@seinet.org](mailto:aseiple@seinet.org)) or Gregg Hartley ([hartleyassociated@icloud.com](mailto:hartleyassociated@icloud.com)).

**COVID-19**

As we (hopefully) approach a more positive period following the COVID-19 pandemic, SEI is soliciting feedback with regard to Participants' willingness to host onsite audit(s). If your company has an established policy on outside visitors, travel, etc., please share those allowances/restrictions with SEI's Quality Manager, Kate McDonald ([kmcdonald@seinet.org](mailto:kmcdonald@seinet.org)), and SEI Program Manager, David Petit ([dpetit@seinet.org](mailto:dpetit@seinet.org)).

We hope you have found this bulletin to be helpful. Do not hesitate to call or write with any questions.

Sincerely,

Anna Seiple  
Program Director  
703-442-5732 Ext. 4010
